

Digi Carotene Website Content — SEO Rewrite

Oct 8, 2026 · @Sai Narasimhan Palakolanu

Audit: what to fix before the content goes live

The design and service architecture are strong; the site loses rankings mainly because the home page never says "digital marketing agency in Hyderabad", proof sections are still placeholders, and the global story is missing. Fix the ten items below first, then drop in the page content that follows.

#	Issue on the current build	Where	Fix	Priority
1	Three rotating H1s on the home page	Home hero	Keep ONE H1 with "Digital Marketing Agency in Hyderabad"; rotate the other lines as styled spans, not H1s	High
2	No Hyderabad keyword in the home H1, title or meta	Home	Use the title/meta in the checklist at the end	High
3	WhatsApp button points to a placeholder UAE number (+971 50 123 4567)	Every page	Replace with the real Digi Carotene business number	High
4	Client logos show "Client 01-08"	Home marquee, Clients page	Upload real logos (with permission)	High
5	Case studies are all "[[to confirm]]"	Home + Case Studies	Publish 3–6 real stories (template below)	High

#	Issue on the current build	Where	Fix	Priority
6	Footers disagree: home says "Hyderabad, India"; inner pages say "Hyderabad · Bangalore, 7+ years, 300+ clients"	Footer	One footer everywhere, with full address and the global line	High
7	No address, phone, map or office hours anywhere	Contact, footer	Add full NAP matching Google Business Profile exactly	High
8	About page is one section (very thin)	/about	Use the long-form About content below	Medium
9	FAQ answers don't appear in the page text	Home, service pages	Render answers in the HTML (not only on click) + FAQ schema, so Google and AI engines can read them	Medium
10	Hyderabad/Bangalore location pages are linked only from inner-page footers; no global page	Navigation	Add a "Locations" menu and the new pages below	Medium

Also check: the home CTA "Explore Our Services" links to /services — confirm that page exists (the menu uses /services/digital-marketing). Image alt text currently reads "image to confirm"; replace with descriptive alts (e.g., "Mall activation by Digi Carotene at a Hyderabad mall").

Placeholders in [square brackets] throughout this doc need real numbers, names or addresses before publishing — never publish an invented figure.

Sitemap, navigation and scroll depth

Every page follows one nine-block scroll pattern and ends with links to the next logical page, so a visitor never hits a dead end. Keep the current mega menu and add two items: **Locations** and **Industries**.

Main menu (new items marked NEW)

- Home
- About → About Us · Founder's Story · Team · Clients & Global Presence (renamed)
- Services → Digital Marketing (10 pages) · Offline Marketing (9 pages) · PR Services
- Industries (NEW) → Healthcare & Clinics · Restaurants & QSR · Salons & Beauty · Education · Real Estate & Furniture · D2C & Retail · B2B & Technology
- Locations (NEW) → Hyderabad · Bangalore · Global (USA, UAE, UK, Australia, Singapore — only markets where you have real clients)
- Resources → The Journal · Case Studies · Free GEO & AEO Scan
- Contact Us (button)

The scroll-depth pattern used on every page

1. **Hero (0-10%)** — H1 with the main keyword, one-line promise, two CTAs (primary: Free GEO Scan / Get a Proposal; secondary: WhatsApp).
2. **Trust strip (10-15%)** — client logos marquee + 3 stats (years, clients, countries).
3. **Problem (15-25%)** — name the visitor's pain in their words.
4. **Solution / services (25-45%)** — tabbed or accordion cards, each linking deeper.
5. **Proof (45-60%)** — one case-study card or testimonial with a real number.
6. **Process (60-70%)** — 4 numbered steps (Diagnose · Unify · Activate · Govern).
7. **Mid-page CTA band (70%)** — short offer, not a form.
8. **FAQ (75-90%)** — 5-6 questions, answers visible in HTML, FAQ schema.
9. **"Keep exploring" + final CTA (90-100%)** — 3 related-page cards, then the contact block.

Navigation rules that keep people moving

- Breadcrumbs on every inner page (already on service pages — add to About, Industries, Locations).
- Every service page links to: 2 related services, 1 industry page, 1 case study, the Hyderabad page.
- Every industry and location page links to the 3-4 services most relevant to it.
- Sticky header CTA + floating WhatsApp button on mobile; a "Back to top" button after 50% scroll.
- A thin reading-progress bar on blog posts and case studies.

- Track scroll depth in GA4 at 25 / 50 / 75 / 90% and CTA clicks per section, so you can see which blocks lose people.

Home page

The home page now leads with performance and growth marketing, and gives all ten digital services equal weight. Primary keyword: **digital marketing agency in Hyderabad**. Secondary: performance marketing agency Hyderabad, growth marketing agency India, lead generation agency Hyderabad, global digital marketing agency. URL: /

Hero

Eyebrow: Performance & Growth Marketing Agency

H1: Digital Marketing Agency in Hyderabad, Growing Brands Across the Globe

Rotating sub-lines (styled text, not H1): Ads that pay back. · Funnels that keep growing. · Content that converts.

Body: Digi Carotene is a Hyderabad-based performance and growth marketing agency. We turn ad spend into leads, leads into customers, and customers into repeat buyers — using paid ads, social media, content, SEO, websites and automation as one connected system. For [7+] years we have grown [300+] brands, from neighbourhood clinics in Jubilee Hills to companies in [USA, UAE, UK, Australia].

CTAs: Get a Free Growth Audit · Chat on WhatsApp

Trust strip

Trusted by [300+] brands across [X] countries · [7+] years · [₹X Cr+] ad spend managed · [X lakh+] leads generated

Logo marquee: real client logos (with permission). Group by sector: Salons & beauty, Restaurants, Healthcare, Education, Retail, Global/B2B.

The name (keep)

Carotene is a pigment. Warm, concentrated, used with intent — not as decoration. That is also how our marketing should feel.

Problem block

H2: Spending on Ads but Not Seeing Growth?

Most businesses don't have a traffic problem — they have a growth problem. Ads bring clicks that never call. Followers grow but sales don't. Leads go cold because nobody follows up. And three different vendors run ads, social and the website without talking to each other. The result: rising cost per lead and a competitor who keeps winning your customers.

Solution block

H2: Performance and Growth Marketing, Powered by Every Digital Channel

We plan every channel around one goal: profitable growth. Performance marketing brings in customers today, growth marketing makes each one cheaper to win and more likely to return, and every other service feeds that engine.

H3: Our Digital Marketing Services — show as a 10-card grid with equal card size, icon, a 2-line benefit and an Explore link. No card is larger or placed above the others.

Service	Card copy (benefit)	Link
Performance Marketing	Google, Meta, YouTube and LinkedIn ads managed for cost per lead and ROAS.	/services/digital-marketing/performance-marketing
Growth Marketing	Funnel experiments, retention and referral programs that lower acquisition cost.	/services/digital-marketing/growth-marketing
Social Media Marketing	Reels, content calendars and community management that bring customers.	/services/digital-marketing/social
Search Engine Optimization	Rank on Google, win Maps and get recommended by AI search.	/services/digital-marketing/seo
Content Marketing	Website copy, blogs and scripts that answer questions and convert.	/services/digital-marketing/content
Web Design & Development	Fast, conversion-ready websites and landing pages.	/services/digital-marketing/web

Service	Card copy (benefit)	Link
Graphic Designing	Brand identity, ad creatives and social designs that stop the scroll.	/services/digital-marketing/graphic-design
Personal Branding	Founders and doctors positioned as the trusted name in their field.	/services/digital-marketing/personal-branding
Email Marketing	Automated journeys that bring customers back.	/services/digital-marketing/email
Insta Shoot	In-house photo and reel production across Hyderabad.	/services/digital-marketing/insta-shoot

Below the grid, two secondary cards: **Offline & Experiential** → </services/offline-marketing>
PR & Brand Communications → </services/pr>

Growth engine block (replaces the AI search block)

H2: How Our Growth Engine Works

Four stages, one team, one report:

1. **Attract** — performance ads, social media, SEO and content bring the right people in.
2. **Convert** — landing pages, websites and WhatsApp follow-up turn visitors into enquiries.
3. **Retain** — email, WhatsApp and loyalty journeys turn first-time buyers into regulars.
4. **Scale** — we test, read the numbers weekly and move budget to what works.

One line under it: Customers now also ask ChatGPT, Gemini and Google AI Overviews for recommendations — our SEO and content work makes sure you're named there too.

Hyderabad + global block (keep)

H2: Rooted in Hyderabad. Working With Brands Worldwide.

Our team works from [Manikonda / office area], Hyderabad, and serves clients across Hyderabad, Secunderabad, Bangalore, [other Indian cities] and international markets including [USA, UAE, UK, Singapore, Australia]. Local clients get on-ground shoots, activations and same-city meetings. Global clients get a dedicated account manager, overlap hours in their time zone, and reporting in their currency.

Two cards: Digital Marketing in Hyderabad → /digital-marketing-agency-hyderabad ·
Global Clients → /global

Verticals (keep the six; rename H2)

H2: Industries We Grow — From Local Leaders to Global Brands

Keep the six cards; add one line of proof to each, e.g. "Healthcare: [X] clinics and hospitals, [X]% lower cost per appointment." Each card links to its Industry page.

Proof

H2: Growth Our Clients Can Count

Three case-study cards, each from a different service, each with one number — e.g. Performance: "[45]% lower cost per lead in [3] months"; Growth: "[2x] repeat orders through WhatsApp journeys"; Social: "[X] bookings a month from Instagram". Link to /case-studies.

Testimonial slider: 3–5 real quotes with name, role, business, city/country, and a Google review link.

Process (rewrite)

H2: How We Work: Diagnose, Launch, Scale, Compound

1. **Diagnose** — audit your ads, funnel, website, social and search presence; set targets for cost per lead and revenue.
2. **Launch** — campaigns, creatives, landing pages and tracking go live within [2] weeks.
3. **Scale** — weekly testing of audiences, offers and creatives; budget moves to winners.
4. **Compound** — retention journeys, content and SEO keep lowering acquisition cost month after month.

Why us (rewrite)

H2: Why Brands in Hyderabad and Abroad Choose Digi Carotene

- **Reported in leads and revenue, not likes** — monthly reports on enquiries, cost per lead, ROAS and repeat customers.
- **Every digital channel, one team** — ads, growth, social, content, SEO, web, design and shoots under one roof, including our in-house studio (#DCProductions).

- **Built to test and scale** — weekly optimisation, clear experiments, no lock-in to what isn't working.
- **Local muscle, global standards** — on-ground in Hyderabad; time-zone-friendly service for international clients.

FAQ (answers visible in HTML)

H2: Frequently Asked Questions

- **Which is the best digital marketing agency in Hyderabad for small businesses?** — The right agency reports in enquiries and revenue, not just reach. Digi Carotene works with clinics, salons, restaurants, schools and retailers across Hyderabad, with plans that start small and scale with results.
- **What is the difference between performance marketing and growth marketing?** — Performance marketing buys customers through paid ads and is measured on cost per lead and ROAS. Growth marketing improves the whole funnel — conversion, retention and referrals — so each customer costs less and buys more often. We run both together.
- **Which digital marketing services do you offer?** — Performance marketing, growth marketing, social media, SEO, content, web design, graphic design, personal branding, email marketing and Instagram shoots, plus offline activations and PR.
- **Do you work with clients outside India?** — Yes. We work with brands in [countries], with a dedicated account manager, video calls in your time zone and invoicing in [USD/AED/GBP].
- **How much does digital marketing cost in Hyderabad?** — It depends on channels and goals. Most retainers start at [₹X per month]; ad spend is separate. We share a fixed scope and price after a free audit.
- **Where is Digi Carotene located?** — [Full address], Hyderabad, Telangana [PIN]. We meet clients in person across Hyderabad and online worldwide.

About, Founder's Story and Team

The About page is currently one section; it needs 7–8 blocks so Google sees depth and visitors see the people behind the work. Keyword: **digital marketing company in Hyderabad**.

About Us — /about

H1: About Digi Carotene — A Hyderabad Digital Marketing Company Built for the AI Era

We are a full-service digital marketing and technology agency headquartered in Hyderabad. Since [year founded], we have helped [300+] brands get found on Google, get cited by AI, and get remembered in the real world — across India and [countries].

H2: Our Mission: Make Brands Findable and Memorable

Modern marketing needs technical precision and real-world craft. SEO ranks you on Google. Answer Engine Optimization and Generative Engine Optimization get AI systems to cite you. Offline activations and PR turn that visibility into footfall, trust and recall. We run all of it as one system.

H2: Our Story in Numbers

Stat row: [Year] founded · [300+] brands served · [X] countries · [X] team members · [X] campaigns shipped · [X]+ shoots by our in-house studio

H2: What Makes Us Different

- **Strategy and execution in one place** — the people who plan your campaign also build it, shoot it and report on it.
- **An in-house production studio** — photo and video shoots for reels, ads and websites, without outsourcing (#DCProductions).
- **Technology, not just marketing** — WordPress and custom web builds, WhatsApp Business API automation, booking flows and CRM integrations.
- **Local depth, global reach** — we know Hyderabad's neighbourhoods and festivals, and we work in your time zone abroad.

H2: Our Values

Clarity over jargon · Results over vanity metrics · Honest reporting · Craft in every pixel · Long-term partnerships

H2: Where We Work

Headquarters: [Full address], Hyderabad. Serving Hyderabad, Secunderabad, Cyberabad, Bangalore and clients in [countries]. Embed the Google Map of the office.

H1: Founder's Story — Why We Started Digi Carotene

H2: The Problem We Kept Seeing — [Founder name] watched local businesses pay three or four vendors who never spoke to each other. [1-2 lines in the founder's own voice.]

H2: From [First Office/Year] to [300+] Brands — a short timeline: founding → first big client → studio launched → offline activations → first international client → AI search practice.

H2: What We Believe About Marketing — 3 beliefs, in the founder's voice.

H2: Where We Are Going — the global vision: helping Indian and international brands win discovery in the AI era.

Add a Person schema for the founder with LinkedIn link — it helps AI engines connect founder and company.

Clients & Global Presence — /about/clients

This page carries the "clients across the globe" positioning, so it must show a map, logos by region and real quotes. Keywords: **digital marketing agency for international clients, offshore digital marketing agency India.**

H1: Our Clients — 300+ Brands in Hyderabad, Across India and Around the World

From a teakwood furniture showroom in Lingampally to [a software company in Texas], our clients range from neighbourhood favourites to global businesses. What they share: they want marketing that shows up in revenue.

H2: Where Our Clients Are

Interactive world map with pins for each market and a client count per country. Below it, a row: India · [USA] · [UAE] · [UK] · [Singapore] · [Australia] — list only countries with at least one real client.

H2: Brands We Work With in Hyderabad

Logo grid grouped by sector: Salons & Beauty · Restaurants & Cafes · Healthcare & Hospitals · Education · Furniture & Home · Food & D2C · Events & Lifestyle. For franchise outlets, label them as the outlet (e.g., "[Brand], Attapur") so you don't imply a national contract.

H2: Brands We Work With Across India — clients outside Telangana (e.g., [Dehradun], [Bangalore], [Rajahmundry]).

H2: Our International Clients — logo grid + one line each: country, industry, service.

H2: What Our Clients Say

Video testimonials first (shot by our studio), then text quotes. Each: name, role, business, city/country, star rating. Link to the Google Business Profile reviews.

H2: Why Global Brands Work With a Hyderabad Agency

- **Senior talent at sustainable cost** — strategists, designers, developers and writers in one team, priced for long-term retainers.
- **Time-zone coverage** — overlap hours for US, UK, Middle East and APAC clients; a named account manager.
- **Global platforms, local fluency** — Google, Meta, LinkedIn and AI search for international markets; on-ground execution for India launches.
- **Clear process** — weekly updates, monthly reports, shared dashboards, NDA and data-protection on request.

H2: Industries We Serve — 7 icon cards linking to each Industry page.

SEO, AEO & GEO service page — /services/digital-marketing/seo

This is the page most likely to win money keywords, so it gets the longest content (1,800–2,200 words). Keywords: **SEO company in Hyderabad**, SEO services Hyderabad, local SEO Hyderabad, GEO agency India, AEO services. The current statistics ("~40% click drop", "100 million weekly ChatGPT users in India") need a linked source or should be removed — AI engines and Google both reward cited claims.

H1: SEO Company in Hyderabad — Rank on Google, Win Maps, Get Recommended by AI

Sub-line (keep the current hook): Ranking #1 isn't the finish line anymore. Being the answer is.

H2: SEO Built for How People Search in 2026

Your customers still Google. They also ask ChatGPT, Gemini, Perplexity and Google's AI Overviews — and often get one answer back. We make sure that answer is you, with clear, trusted, well-structured content and a technically sound website.

H2: Our SEO Services

- **Technical SEO** — site speed, Core Web Vitals, crawlability, schema markup, mobile UX, indexing fixes.
- **Local SEO & Google Business Profile** — Maps ranking, review strategy, NAP consistency, local landing pages for Hyderabad areas.
- **On-page SEO & content** — keyword-mapped service pages, blogs and FAQs that answer real questions.
- **Link building & digital PR** — authoritative mentions from Indian and international publications.

- **AEO (Answer Engine Optimization)** — question-led content, FAQ and HowTo schema, featured-snippet targeting.
- **GEO (Generative Engine Optimization)** — entity building, brand mentions and citation-ready pages so AI tools name you.
- **International SEO** — hreflang, country-targeted pages and global link building for brands selling abroad.
- **E-commerce SEO** — category and product optimisation for Shopify and WooCommerce stores.

H2: What You Get Every Month (replaces the four generic deliverables)

- A 90-day SEO roadmap, prioritised by impact
- Optimisation of [X] existing pages and [X] new articles per month
- Google Business Profile posts, photos and review replies
- A monthly report: rankings, organic leads, Maps calls and direction requests, AI citation share
- A monthly strategy call

H2: How We Implement It — keep: Strategy & roadmap → Fix & build → Measure & expand.

H2: Local SEO for Hyderabad Businesses

We rank clinics, salons, restaurants, schools and showrooms in the neighbourhoods they serve — Gachibowli, Kondapur, Madhapur, Jubilee Hills, Banjara Hills, Kukatpally, Manikonda, Miyapur, Secunderabad and beyond. Link to /digital-marketing-agency-hyderabad.

H2: SEO and AI Search for Global Brands

For clients in [USA, UAE, UK, Australia], we build country-specific pages, international links and B2B content that gets cited when buyers ask AI for vendors. Link to /global.

H2: Particularly Effective For — keep the six industries; link each to its Industry page.

H2: SEO Results — one case card: "[Dermatology clinic, Hyderabad]: [X] keywords on page one, [X]% more appointment calls in [X] months."

H2: Questions We Hear Most (write the answers in the HTML)

- **How do I get my business recommended by ChatGPT?** — Publish clear answers to the questions customers ask, earn mentions on trusted sites, keep your business details identical everywhere, and add structured data. AI tools recommend brands they can verify across many sources.

- **Do I still need SEO if people use AI search?** — Yes. AI answers draw heavily from pages that already rank and are well structured. SEO is the foundation; AEO and GEO build on it.
- **How much do SEO services cost in Hyderabad?** — Local SEO typically starts at [₹X]/month; multi-location or national SEO at [₹X]/month; international SEO is quoted per market. We share a fixed scope after a free audit.
- **How long does SEO take?** — Technical fixes show in weeks; competitive rankings usually take 3–6 months. Google Maps visibility often moves faster.
- **What is local SEO?** — Optimising your Google Business Profile, reviews, local pages and citations so you appear in "near me" and Maps results in the areas you serve.

H2: Digital Marketing Services in Hyderabad — 8 service cards linking to each service page.

H2: Areas We Serve in Hyderabad

Gachibowli · HITEC City · Madhapur · Kondapur · Jubilee Hills · Banjara Hills · Manikonda · Financial District · Kukatpally · Miyapur · Nizampet · Lingampally · Ameerpet · Begumpet · Secunderabad · Somajiguda · Attapur · Kompally · Uppal · LB Nagar · Dilsukhnagar · Shamshabad

H2: Industries We Grow in Hyderabad — Restaurants & QSR · Salons · Clinics & Hospitals · Colleges & Coaching · Furniture & Real Estate · Home Foods & D2C

H2: Hyderabad Success Stories — 2-3 local case cards (sector + area + one number).

H2: What Hyderabad Clients Say — Google reviews widget.

H2: Visit Our Hyderabad Office — full address, phone, hours, Google Map embed, "Get Directions" link. NAP must match the Google Business Profile character for character.

H2: FAQs About Digital Marketing in Hyderabad — cost; best agency for small businesses; Telugu content; how fast Google Maps rankings improve; do you meet in person.

Area landing pages (phase 2)

Create 5–6 area pages only where you have real clients or an office nearby — e.g., /digital-marketing-agency-gachibowli, -kondapur, -kukatpally, -jubilee-hills, -secunderabad. Each needs ~600 words unique to that area (local clients, landmarks, local business mix). Templated pages that only swap the area name get ignored or penalised.

H1 pattern: Digital Marketing Agency in [Area], Hyderabad

H2s: Marketing for [Area] Businesses · Services · [Area] Clients We Work With · How to Reach Us from [Area] · FAQs

Bangalore page

Keep /digital-marketing-agency-bangalore, but only if you have Bangalore clients or a team there; if not, make it "Serving Bangalore from Hyderabad" and say so honestly.

Global markets page — /global (NEW)

This page is the core of the "clients across the globe" positioning and targets buyers searching for an offshore or outsourced agency in India. Keywords: **offshore digital marketing agency India**, outsource digital marketing to India, white-label digital marketing India. Add country sections only for markets where you can show a client.

H1: Global Digital Marketing Agency — Hyderabad Talent, Worldwide Results

Brands in [the USA, UAE, UK, Singapore and Australia] work with Digi Carotene for one reason: a senior, full-stack marketing team that delivers like an in-house department — at a cost that makes long-term growth possible.

H2: How We Work With International Clients

1. **Discovery call in your time zone** — goals, markets, budgets.
2. **Market audit** — your search, AI-citation and competitor landscape in each country.
3. **90-day plan and fixed scope** — signed off before work starts.
4. **Dedicated pod** — account manager, strategist, designer, writer, ads specialist, developer.

5. Weekly updates, monthly reviews — shared dashboards, Slack or Teams, invoices in your currency.

H2: Services for Global Brands

- International and multi-country SEO, AEO and GEO
- Google, Meta and LinkedIn ads for US, UK, GCC and APAC audiences
- LinkedIn marketing and B2B thought leadership
- Websites, landing pages and sales decks
- White-label services for agencies abroad
- India market-entry: launches, activations and PR for global brands entering India

H2: Markets We Serve

- **United States** — B2B SaaS and enterprise tech: LinkedIn, account-based content, website revamps.
- **UAE & GCC** — retail, real estate, hospitality: bilingual campaigns, Meta and Google ads.
- **United Kingdom & Europe** — e-commerce and services: SEO, content, paid social.
- **Singapore & Australia** — D2C and professional services.
- **Indian diaspora brands** — businesses serving NRI audiences worldwide.

H2: Why Choose an Indian Agency — and Why Hyderabad

Hyderabad is one of India's largest technology hubs, home to global capability centres of major tech companies. That talent pool — strong in tech, data and English-first communication — is what our team is built from.

H2: Time-Zone Coverage — a simple table: client region · overlap hours (IST) · meeting windows.

H2: Security, Contracts and Payments — NDAs, data-protection practices, international payments (wire, PayPal, Wise), GST/export invoicing.

H2: Global Client Stories — 2–3 case cards with country flags.

H2: FAQs for International Clients — Do you work in our time zone? How do we pay? Who owns the ad accounts and content? Can you work white-label? Minimum engagement?

CTA: Book a call in your time zone (Calendly with time-zone detection).

Industries pages (NEW)

Industry pages capture high-intent searches like "digital marketing for doctors in Hyderabad" and show depth from your real client base. Build a hub at /industries plus seven pages, each 900–1,200 words.

Industries hub — /industries

H1: Digital Marketing by Industry — Strategies Built for Your Business

H2: Industries We Specialise In — 7 cards · H2: Why Industry Experience Matters · H2: Talk to an Industry Specialist (CTA)

Case studies, Contact and Blog

These three pages turn readers into enquiries and keep fresh content flowing; the blog plan below gives 12 posts targeting Hyderabad and global searches.

Case Studies — /case-studies

H1: Digital Marketing Case Studies — Real Results for Hyderabad and Global Brands

H2: Filter by Industry, Service or Country — filter chips.

Each case study page uses this template:

- **H1:** How [Client/Sector] in [City/Country] Got [Result] with [Service]
- **H2:** The Challenge · **H2:** Our Approach · **H2:** What We Did (bullets) · **H2:** The Results (3 big numbers) · **H2:** In the Client's Words (quote) · **H2:** Services Used (links) · **H2:** Want Results Like These? (CTA)

Publish 6 to start: one each for SEO, performance ads, social media, offline activation, web build and an international client.

Contact — /contact

Schema markup

- **Organization + LocalBusiness (ProfessionalService)** on every page: name, logo, address, geo coordinates, phone, hours, sameAs (Instagram, LinkedIn, Facebook, YouTube, Google Business Profile), areaServed (Hyderabad + countries).
- **Service** schema on each service page; **FAQPage** wherever FAQs appear; **BreadcrumbList** on inner pages.
- **Person** for founder and team leads; **Article** with author on blog posts; **Review/AggregateRating** only for genuine, verifiable reviews.

Technical

- Exactly one H1 per page (fix the home hero first).
- Self-referencing canonicals; the current build points canonicals to digicarotene.com — correct for launch, but keep the Vercel preview set to noindex so it doesn't compete.
- XML sitemap + robots.txt; submit to Google Search Console and Bing Webmaster Tools (Bing feeds ChatGPT search).
- Descriptive image alt text and file names; compress the hero banners (serve AVIF/WebP, lazy-load below the fold).
- Core Web Vitals: LCP under 2.5s on mobile — the three full-width hero images are the main risk.
- Add an llms.txt file summarising services, locations and key pages for AI crawlers.
- Identical NAP on the site, Google Business Profile, Justdial, Sulekha, Clutch, GoodFirms, LinkedIn and Facebook. Clutch and GoodFirms profiles also help win international clients.

Before launch: facts to confirm

- ☐ Real WhatsApp number and office address
- ☐ Founding year, client count, team size, countries served

- ☐ Client logos with permission
- ☐ At least 3 case studies with numbers
- ☐ Starting prices (or "custom quote")
- ☐ Sources for any statistic quoted on the site
